

Silicon Bronze Annular Ring Nails

- **Highly corrosion resistant nail used in the fixing of cedar shingles as the acidic nature of the wood can cause staining with iron-based materials**
- **Annular ring barbs create a locking effect and nail resists pull out stresses**
- **Manufactured to BSI202**

Code	Length	Gauge	Material	Pack Weight	Average Nail Count Per Kg
NABR3030180	30mm	1.80mm	Silicon Bronze	1kg	1530

Fascia Nails & Pins

Fascia Nail

Fascia Pin

- **Self masking fasteners for use on exposed fixing areas, particularly UPVC**
- **They are easy to use, simply hammer in like ordinary nails**
- **The annular ring shank gives gripping characteristics of conventional woodscrews**
- **The shatterproof polytop head and stainless steel shank make them corrosion resistant and maintenance free**
- **The coloured heads can be matched to different materials**

Code	Type	Head Colour	Length	Gauge	Material	Box Quantity
NPNW040	Fascia Nail	White	40mm	3.35mm	Stainless Steel	100

Cladding Pins

- **Ideal for use with uPVC cladding applications**
- **Patterned head which diffracts sunlight and helps with paint adhesion**
- **Stainless steel for high corrosion resistance and an annular ring shank for grip**

Code	Length	Gauge	Material	Box Quantity
NPCP030	30mm	2.00mm	Stainless Steel	250
