

**Hex Full Nuts**

- Double chamber hexagon full nuts
- Metric coarse thread DIN934
- High tensile for steel nuts Grade 8.8
- Available in A2 stainless steel for high corrosion resistance

Code	Size	External Size A/F	Finish/Material	Box Quantity

**Hex Nylon Insert Nuts**

- Metric coarse thread DIN985 Type T
- High tensile steel Grade 8.8
- The bolt threads into the nylon material located at the top of the hex nut
- The nut then 'self locks' and prevents loosening from vibration
- Also available in stainless steel

BXNSTY10	M10	17mm	Stainless Steel	100
BXNSTY12	M12	19mm	Stainless Steel	100

- Nuts which have wings or ears which enable them to be turned by hand
- For use where regular, simple adjustment may be required
- Zinc plated for corrosion resistance

**Wing Nuts**
