

Angle Beads

- Gives a strong and straight external corner
- Galvanised bead for internal use
- uPVC/stainless steel beads should be used externally or in marine environments

Galvanised

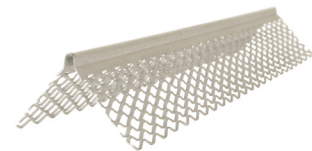

uPVC

Code	Wing/Flange	Plaster Depth	Length	Finish	Pack Quantity
RABG2445	45mm	-	2.4 Metres	Galvanised	50
RABG3045	45mm	-	3.0 Metres	Galvanised	50
RABS3045	45mm	-	3.0 Metres	Stainless Steel	25
RABUW250610	-	6mm-10mm	2.5 Metres	uPVC - White	50
RABUW250812	-	8mm-12mm	2.5 Metres	uPVC - White	40
RABUW251319	-	13mm-19mm	2.5 Metres	uPVC - White	30

Mini Mesh

- For single coat plaster applications including dry wall, block and slab work
- Provides excellent adhesion/reinforcement
- Galvanised bead for internal use only

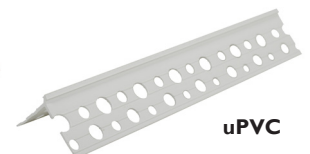

Code	Wing/Flange	Length	Finish	Pack Quantity
RAMG2428	25mm	2.4 Metres	Galvanised	50
RAMG3028	25mm	3.0 Metres	Galvanised	50

Perforated Thin Coat Beads

- Designed for standard single coat plasterwork
- Galvanised bead for internal use and uPVC for external use or in marine environments

Galvanised

uPVC

Code	Wing/Flange	Plaster Depth	Length	Finish	Pack Quantity
RATG2422	22mm	-	2.4 Metres	Galvanised	50
RATG3022	22mm	-	3.0 Metres	Galvanised	50
RATL2422	25mm	-	2.4 Metres	Galvanised	50
RATUW250203	-	2mm-3mm	2.5 Metres	uPVC - White	50

Arch Beads

- Enables definition to be given to drylined arches and curves
- Flexible enough to form a 250mm radius
- uPVC so can be used externally or in marine environments

Code	Plaster Depth	Length	Finish	Pack Quantity
RAAU250203	2mm-3mm	2.5 Metres	uPVC - White	50
